Skills & Technologies

Languages & Frameworks: Java, Python, C#/.NET, Go
Technologies: AWS, Linux, Git, MySQL, Maven, Gradle, Docker, ELK
Tools: Github, Jenkins, Kibana, DataDog, Consul

Experience

CS Disco   **Austin, TX (Remote)**
Senior Software Engineer   *September 2021 – Present*
  - Maintained and developed highly-scalable lambdas that perform over 1 billion invocations per month
  - Created and executed process for deployment & validation of team's services in new region
  - Productized services, including logging, metrics, migrating to Terraform, regression suites
  - On-call experience investigating customer issues, building runbooks for interventions, and debugging production

Apptio   **Boulder, CO**
Software Development Engineer II - Cloudability   *July 2020 – August 2021*
  - Applied backend-focused development skills using Java and Go, focusing on cloud spend optimization
  - Designed, implemented, and maintained features for customers in a highly collaborative environment
  - Built microservice aggregating Reserved Instance and Savings Plan data for visualization
  - Improved database query performance of two services by over 50%, and reduced database size by 30%
  - Gained on-call experience with deploying, scaling, and debugging multiple microservices using Kubernetes
  - Participated in multiple company-wide Guild initiatives, including standardization and tech talks

Software Development Engineer II - IT Planning   *August 2017 – July 2020*
  - Completed full-stack development using Java and React, focusing on IT finance and management software
  - Delivered full lifecycle features for customers in both team and solo environments
  - Refactored several areas of the application to improve readability and performance
  - Enhanced DevOps and developer processes with Python scripts and various tools
  - Garnered on-call experience with supporting multi-region production environments using AWS
  - Mentored peers and interns throughout onboarding and feature development

Education

University of Colorado   **Boulder**
Computer Science - Bachelor of Science   *Fall 2013 – Spring 2017*
Minors: Mathematics, Economics
Honors: Cum Laude, Dean's List, CU Esteemed Scholar

Interests

Certifications: AWS Certified Developer Associate

Competitions & Mentoring: HackCU, T9 Hacks, Google Games
